

Leo Ezekiel M. Genodiala

Cloud Engineer | Software Developer | DevOps

leogenodiala@gmail.com | linkedin.com/in/leogenodiala | atzekes.github.io/Github-Portfolio | Bacoar, Cavite, Philippines

PROFESSIONAL SUMMARY

IT graduate with hands-on experience in cloud infrastructure, full-stack web development, and technical support. Deployed and managed production web applications on AWS EC2 and S3. Led development of a multi-branch booking and sales monitoring system using Laravel, PHP, and MySQL. AWS-certified with practical training in EC2, Lambda, S3, and CLI. Seeking an entry-level role in cloud engineering, software development, or DevOps.

TECHNICAL SKILLS

Cloud & DevOps: AWS EC2, AWS S3, AWS Lambda, AWS CLI, Docker, GitHub Actions

Web Development: PHP, Laravel, HTML5, CSS3, Bootstrap, JavaScript, MySQL, FastAPI, Python

Networking & Security: TCP/IP, DNS, Network Fundamentals, Cisco Networking Basics

Developer Tools: Git, GitHub, VS Code, Figma, AWS

Soft Skills: Technical Communication, Documentation, Team Collaboration, Problem Solving, Client Support

PROFESSIONAL EXPERIENCE

Service Level Technician (OJT/Intern) | *CXI Service Inc.*

Feb 2026 – May 2026

- Provided Tier 1 technical support within a BPO environment, resolving hardware, software, and connectivity issues.
- Performed systematic troubleshooting and documented incident resolution steps to maintain service quality standards.
- Collaborated with IT team members to escalate and resolve complex technical concerns within SLA timelines.
- Assisted in daily IT service operations including equipment maintenance and user account management.

Web Application Developer | *Skin911 Capstone Project*

Sep 2025 – Dec 2025

- Led end-to-end development of a multi-branch booking and sales monitoring system with role-based access control (RBAC).
- Architected Laravel backend with RESTful routing, Blade templating, and MySQL database schema design.
- Built responsive frontend using HTML5, CSS3, Bootstrap 5, and JavaScript with authentication and session management.
- Deployed application on AWS EC2 with Apache; configured mod rewrite for Laravel routing and managed S3 file storage.
- Produced technical documentation including Data Flow Diagrams (DFD) and system architecture specifications.

Salesperson | *Aurefine*

Mar 2025 – May 2025

- Conducted product consultations and presentations, translating features into client-friendly value propositions.
- Developed client communication, active listening, and needs-identification skills with solution-oriented outcomes.

PROJECTS

Full-Stack Web App — Multi-Branch Booking System | *Deployed on AWS EC2*

2026

- Built and deployed a complete Laravel/MySQL web application on AWS EC2 with Apache, SSL, and mod rewrite configuration.
- Implemented RBAC (Admin, Staff, Customer roles), booking management, and real-time sales monitoring dashboard.
- Managed deployment pipeline using Git and configured server environment including PHP, MySQL, and Apache from scratch.

Static E-Commerce Website | *Deployed on AWS S3*

2026

- Developed and deployed a fully responsive static e-commerce site hosted on AWS S3 with static website hosting enabled.

- Implemented product catalog, cart UI, and checkout flow using HTML5, CSS3, Bootstrap, and vanilla JavaScript.
- Configured S3 bucket policies, public access settings, and CloudFront-ready structure for production delivery.

Tic-Tac-Toe Game | *Static Web App*

2025

- Built a fully interactive browser-based Tic-Tac-Toe game using HTML, CSS, and JavaScript with two-player support.
- Implemented game state logic, win detection, and turn management with a clean, responsive UI.

EDUCATION

Bachelor of Science in Information Technology

2022 – 2026

STI College Bacoar, Cavite, Philippines

CERTIFICATIONS & TRAINING

AWS Cloud Quest: Cloud Practitioner | *AWS Skill Builder*

2026

SimuLearn AWS Training | *AWS Skill Builder*

2026

Cisco Networking Basics | *Cisco Networking Academy*

2024
